Chapter 1  Introduction  1
  Landscape setting  1
  Archaeological background  5
    Neolithic and Bronze Age – early settlement and funerary activity  5
    The later Bronze Age and Iron Age – a landscape transformed  8
    From Conquest to village development  9
  Project history and fieldwork breakdown  11
    Evaluation  11
    Excavation  13
  Methodologies  14
    Excavation  14
    Post-excavation and publication  21

Chapter 2  Neolithic and Bronze Age (Sites I and VI)  23
  Neolithic–Early Bronze Age  23
    Neolithic–Early Bronze Age features  24
    The residual evidence  26
    Material culture  26
      Worked flint  26
    Neolithic and Early Bronze Age pottery  29
  Middle Bronze Age  29
    Fieldsystem  29
    Site I: the enclosure  31
      Compound A  34
      Compound B  39
      Compound C  40
      The southeastern entrance  41
    Settlement features – structures and pits  41
    Site I: ditches F.1116 and F.1008  45
    Site VI: the enclosure (with Marcus Brittain)  46
    Patterns of deposition (Sites I and VI)  48
      Compound/enclosure comparison  49
      Individual enclosures/compounds  51
    Beyond the enclosures: land division and dispersed features (with Tom Phillips)  55
    Human remains (Benjamin Neil)  58
    Material culture  62
      Middle Bronze Age pottery (Mark Knight)  62
      Metalwork (Grahame Appleby)  67
      Worked bone (Ian Riddler)  69
      Worked stone (Simon Timberlake)  70
      Other finds  71
    Faunal remains (Vida Rajkovača)  71
      Site I  71
      Site VI  76
      Site IV South (Hayley Foster)  77
    Strontium isotope analysis (Bryony Rogers, Geoff Nowell & Janet Montgomery)  77
Late Bronze Age

The Site I enclosure
Watering holes/pit-wells and associated activity
Dispersed features and ring-gully F.300
Human remains (Benjamin Neil)
Material culture
Late Bronze Age pottery from F.1029 (Kate Beats and Sarah Percival)
Quern (Simon Timberlake)
Waterlogged wood (Iona Robinson Zeki)
Faunal remains (Vida Rajkovača)

Palaeoenvironmental investigations
Plant remains (Rachel Ballantyne and Rachel Fosberry)
Pollen (Steve Boreham)
Mollusc analysis; a land-use history from Middle Bronze Age ditch F.1183 (Mike Allen)
Soil micromorphology (Charles French)

Radiocarbon dating and chronological modelling (Frances Healy and Elaine Dunbar)
A model
The early fieldsystem and the outer ditch of Compound B
The inner ditch of Compound B
Compound A
Compound C
Site I as a whole
An alternative
The immediate area
Ardleigh style pottery

Discussion
Before the enclosures – early activity and the first fieldsystem
Enclosure development
Inset: A modern beef farmer’s perspective (with Chris Wisson and Vida Rajkovača)
Enclosure function and site economy
Structured deposition (?) and the settlement’s dead
The Middle Bronze Age of the southern Cambridge environs
Late Bronze Age activity

Chapter 3
Iron Age–first-century AD settlement (Sites I and II)

Middle Iron Age (Site I)
The pit alignment (Pit Group 1)
Activity within the Middle Bronze Age Site I enclosure (Pit Groups 2 and 3)
Pit Groups 4–6 and Structure 1
Quarry hollow F.1056 et al.
Boundaries in the Iron Age landscape
Material culture
Iron Age pottery (Sarah Percival and Kate Beats)
Burnt and worked clay (Simon Timberlake)
Other finds
Faunal remains (Vida Rajkovača)

Late Iron Age–Early Roman settlement (Site II)
Site overview
Phasing sequence
Late Iron Age (Phase I)
Late Iron Age–Conquest (Phase II)
Conquest–Early Roman (Phase III)
Early–Mid-Roman (Phase IV)
Late Iron Age–Early Roman structures and settlement features
Roundhouses
Beamslot structures
Midden deposit F.194
Pits and wells
Chapter 5  
Second–fourth-century AD settlement (Site IV North)  
Site chronology and sequence  
A note on phasing  
Late Iron Age–early second-century AD activity (Phase I)  
Mid-second–early third-century AD settlement (Phase II)  
Phasing sequence (Enclosure 2)  
Phase II.1  
Phase II.2  
Mid-third–mid-fourth-century AD settlement (Phase III)  
Phasing sequence (Compounds B–K)  
Phase III.1  
Phase III.2  
Settlement access  
Late fourth-century AD and later activity (Phase IV)  
Buildings and settlement features  
Structures  
A possible traction mill  
Wells  
Pits  
Quarry pits  
The cemeteries  
Cemetery A  
Cemetery B  
Human remains (Benjamin Neil)  
Material culture  
Later Iron Age and Roman pottery (Katie Anderson)  
Roman coins (Adrian Marsden)  
Metalwork (Grahame Appleby)  
Glass (Vicki Herring)  
Worked antler (Ian Riddler)  
Querns and millstones (Rosalind Quick)  
Building materials  
Burnt and worked clay (Simon Timberlake)  
Slag and metalworking debris (Simon Timberlake)  
Economic and environmental evidence  
Faunal remains (Vida Rajkovača)  
Marine shell (Christopher Boulton)  
Plant remains (Rachel Ballantyne)  
Pollen (Steve Boreham)
